Store Operations

Cedar Lane | Inventory operations | Fictional demonstration document. Report a stock discrepancy to the shift supervisor before the end of the same shift. The discrepancy record must include the SKU, counted quantity, system quantity, and reason if known. A supervisor must approve an inventory adjustment. Do not change stock quantities without approval. Recount the affected shelf before submitting the discrepancy record.

Store Operations

Cedar Lane | Click and collect | Fictional demonstration document. Click-and-collect orders are held for 5 calendar days after the ready-for-collection notification. The customer must show the collection code and a photo ID. A nominated collector needs the collection code and their own photo ID. Uncollected orders are cancelled after the holding period and refunded to the original payment method.
